5. DESIGN BUILD PROJECT – BATTLEFIELD PARKWAY (TOWN OF LEESBURG, VIRGINIA)
6. NOTICE OF ADVERTISEMENT FOR BIDS TO BE RECEIVED **WEDNESDAY, SEPTEMBER 27, 2006**
7. NOTICE OF ADVERTISEMENT FOR BIDS TO BE RECEIVED **WEDNESDAY, OCTOBER 25, 2006**

# Notes from the Contract Engineer for August 2006

- The reinstatement of the ESCCC Requirements. Letter attached dated August 3, 2006. Schedule training to have appropriate personnel to meet the requirements effective January 1, 2007.
- The law changes on July 1, 2006 raising the bonding limit from \$100,000 to \$250,000. Read the Special Provision Sections 102.07 and 103.05 for details on when it applies.
- Please read carefully the attachment on eVA. There have been several significant changes.
- Please read the information on the website about the prequalification process carefully as it has been changed considerably. It contains the new application schedule. No firm that is presently prequalified, will be disqualified under the new rules until after October 2007. This is to allow implementation of the new contractor evaluation process.
- Both the Contractor Evaluation and the Safety Indicators are under review. I will keep you posted on the changes. Both will be complete by Fall 2006.
- Notice that the approximate value of advertised work is included on the paper and website advertisement. This is the Six-Year Plan estimate and NOT the Engineer's Estimate. This should be used only to judge the approximate size of the job.
- Notice that the 36 month proposed advertisement schedule is on the website above the monthly ad.
- Electronic Plans are available during the advertisement cycle. This can help you decide whether you are interested in bidding on a job. You can look at the plans on-line before you buy paper plans. On the website at [www.virginiadot.org/business/const](http://www.virginiadot.org/business/const) under "all things advertisement" click on "instructions for utilizing the Falcon Website. Electronic Proposals are available as a test of concept during this advertisement cycle. On the website at [www.virginiadot.org/business/const](http://www.virginiadot.org/business/const) under "announcements, memos and letters" click on "instructions for downloading electronic proposals". Call me if you need more information.
- Use CABB (Contractor's Advertisement Bulletin Board) to ask questions about a job. Just click on the "?" on the advertisement page. It is the only way to ask questions during advertisement.
- When looking for the showing location on CABB, click on the word "yes" in the showing column. You will be taken to a page that gives additional information including the showing location. When the showing is complete, click on "minutes" to view the showing minutes.
- The Form C-61, Form C-111 and Form C-112 must be returned to Nicole Gilliam, Scheduling and Contract Division.
- The Notice to Proceed for all projects is the contract execution date unless otherwise indicated in the proposal. Check the proposal for the new provision.

**GREGORY A. WHIRLEY**  
ACTING COMMISSIONER

July 10, 2006

To: All Prequalified Vendors

Subject: Pre-Qualification Status

Last summer the Department adopted new rules for prequalification to better suite the current state of the industry and business. Whereas the old rules focused primarily on the fiscal health as the major qualification, the new rules leave that measure to the bonding companies, and in its stead the new rules focus on contractor performance and safety. The Department had a tool for measuring contractor quality in the existing C-36 Contractors Evaluation. At the time, the Department thought that was sufficient for measuring quality. The Department did not have a safety measurement and after a great deal of research, choose the Experience Modification Ratio (EMR) as the indicator. The Department set the minimum standard EMR at 1.10; 10% above the industry standard. Even though the proposed changes were circulated to the industry prior to adoption of the new rules, it did not become apparent that some firms that the Department had and still wanted to do business with would be restricted or excluded from participation under the new rules. Two task groups comprised of VDOT and industry members were formed at the Commissioner's request to examine the quality and safety indicators.

The task group on contractor quality has completely revamped the old C-36 process. The new process called Contractors Performance Evaluation process (CPE) is automated, non-subjective as possible, encourages dialog at the project level, and has a vigorous appeals process. The work on this tool is nearly complete. We are arranging for joint training (VDOT/ Industry) at each of the Districts that will most likely occur in October 2006. Assuming all goes well; VDOT will start using the new process starting November 2006.

The task group on safety is not as far along in their work but will likely be complete by late Fall 2006. The Department has examined what all the other states are doing to measure safety. Our research suggest that the safety measure will be a combination of EMR , Recordable Incidence Rates, Lost Time Incidence Rates, OSHA violations, etc. instead of only one measure. Once the process is in final draft format, the Department will circulate it in the usual manner for comment.

- CONTINUED -

Since these two measures are essential to the application of the new rules for prequalification, firms cannot be properly assessed until both task groups are finished their work. That being the case, the prequalification section will cease restricting privileges for low C-36 scores or a high EMR until November 2007. At that time, using the alphabetical order established for renewal of prequalification, we will contact you requesting your current information including the new safety measurements. Until that time *all firms* that were prequalified under the old rules, *and* are currently prequalified under the new rules (of any status) will have full bidding privileges. If your current status is probationary or conditional, you will have full bidding privileges at least until your re-enrollment date after November 2007. During this period it *will not* be necessary to request special consideration for bidding due to probationary or conditional status. However, we will not reissue pre-qualification certificates to change you firm's status until the yearly schedule requires renewal. The website list of vendors does not indicate any restrictions on bidding.

If you have any questions please call Roy Thacker at (804) 786-2941 or me at (804) 786-1630.

Sincerely,

Don E. Silies  
State Contract Engineer

# Important Notice to Bidders

The Governor has determined that all commerce with the Commonwealth of Virginia will utilize one central procurement portal that is common to all agencies. It is called eVa for electronic-Virginia. It is operated under the direction of the Department of General Services (DGS). Beginning with the August 2003 advertisements, all proposals will contain a provision similar to the following:

**Section 102 eVA BUSINESS-TO-GOVERNMENT VENDOR REGISTRATION:** The eVA Internet electronic procurement solution, web site portal [www.eva.state.va.us](http://www.eva.state.va.us), streamlines and automates government purchasing activities in the Commonwealth. The portal is the gateway for vendors to conduct business with state agencies and public bodies. All vendors desiring to provide goods and/or services to the Commonwealth shall participate in the eVA Internet e-procurement solution either through the eVA Basic Vendor Registration Service or eVA Premium Vendor Registration Service. All bidders must register in eVA prior to award of any contracts. ***Failure to register will result in the bid being rejected.***

- a. eVA Basic Vendor Registration Service: \$25 Annual Registration Fee ***plus the appropriate order Transaction Fee specified below.*** eVA Basic Vendor Registration Service includes electronic order receipt, vendor catalog posting, and on-line registration. It also includes an electronic bidding system for use for goods and services (not construction). For construction projects, firms will continue to use the Bid Express Internet bidding system.
- b. eVA Premium Vendor Registration Service: **\$25** Annual Registration Fee plus Transaction Fee ***plus the appropriate order Transaction fee specified below.*** eVA Premium Vendor Registration Service includes all benefits of the eVA Basic Vendor Registration Service plus automatic email or fax notification of solicitations and amendments, and ability to research *eVa* historical procurement data, as they become available.
- c. ***For orders issued prior to July 1, 2006, the Vendor Transaction Fee is 1%, capped at a maximum of \$500 per order.***
- d. ***For orders issued July 1, 2006 and after, the Vendor Transaction Fee is:***
  - i) ***DMBE-certified Woman-Owned Businesses: 1%, capped at \$500 per order.***
  - ii) ***DMBE-certified Minority-Owned Businesses: 1%, capped at \$500 per order.***
  - iii) ***Other Businesses not specified in (i) or (ii) above: 1% capped at \$1,500 per order.***

This provision requires firms to register with *eVa* and pay the annual fee. The \$25 basic fee (payable directly to *eVa*), should be all most contractors will need. VDOT will continue to supply all the same services that we have always supplied, including direct mailing of the monthly advertisement schedule. If you are awarded a contract, your firm will be billed a Transaction fee by *eVa* after your first estimate is generated. This fee of \$500 (or 1%, whichever is less) is charged once for each contract awarded, and is used to defray the cost to operate the *eVa* system.

The *eVa* system is completely separate from all other bidding requirements to participate in VDOT's construction program. All contractors still must be prequalified; and firms must be enrolled in BidX, if they desire to bid electronically.

**Note: If your proposal contains the above specification, the contract will be awarded only if you are registered in *eVa* prior to execution of the contract.**

I understand the registration process is quickly and easily done on line. I suggest that you register at your earliest convenience to avoid Internet registration traffic.

Don Silies  
Contract Engineer

### MEMORANDUM

**To:** District Administrators  
District Construction Engineers  
District Maintenance Engineers  
Residency Administrators  
Area Construction Engineers  
District Environmental Managers

**From:** Malcolm T. Kerley, P.E.  
Chief Engineer

**Subject:** Road and Bridge Specification 107.14(a): Special Provision 107D,  
Department Erosion and Sediment Control Contractor Certification  
Requirements

**Application:** New and Existing VDOT Contracts and Land Use Permits Which  
Include Regulated Land Disturbing Activities

My November 8, 2005 memorandum provided a temporary suspension of the erosion and sediment control certification requirement of Section 107.14(a) of the VDOT Road and Bridge Specifications. This was necessary due to the suspension of VDOT's Erosion and Sediment Control Contractor Certification (ESCCC) training classes while the course material was being reevaluated, and a new agreement for administering the training was being negotiated with the Virginia Transportation Construction Alliance (VTCA).

I am pleased to announce that all outstanding issues regarding the ESCCC training classes have been resolved and it is VTCA's intent to schedule new classes beginning in August of this year. VTCA proposes to hold several classes throughout the State over the next few months.

Page Two  
August 3, 2006

Based on the reinstitution of the ESCCC training classes, and a schedule that will afford adequate opportunity for statewide participation by the end of the current year, my intention is to reinstate the erosion and sediment certification requirement of Section 107.14(a), effective January 1, 2007. The erosion and sediment control certification will be required for all contractors performing regulated land disturbing activities inside VDOT right of way, including those performing such work under a PPTA or Design Build agreement or a land use permit. The requirement will be applicable to all ongoing and future activities. Those contractors with personnel that require this training and certification should be advised to visit the VTCA web site ([www.vtca.org](http://www.vtca.org)) to determine scheduled dates and locations for the ESCCC classes.

If there are any questions concerning this issue, please contact Roy Mills (Location and Design Division) at 804-786-9013, or [roy.mills@vdot.virginia.gov](mailto:roy.mills@vdot.virginia.gov) or Ricky Woody (Environmental Division) at 804-786-4304 or [ricky.woody@vdot.virginia.gov](mailto:ricky.woody@vdot.virginia.gov).

# EROSION AND SEDIMENT CONTROL CONTRACTOR CERTIFICATION PROGRAM

**Richmond  
Holiday Inn Select Koger South  
August 30, 2006**

The Virginia Transportation Construction Alliance, in conjunction with the Virginia Department of Transportation, is offering the Erosion and Sediment Control Contractor Certification Program. This course is intended to train individuals involved in implementing Erosion and Sediment Control Plans on VDOT projects and rights-of-way. Participants who complete the course and pass the examination at the end of training will receive a certificate of completion. This certificate meets VDOT's E&S certification requirements. There are no prerequisites for this course.

We encourage those that are already certified to wait until 90 days prior to their expiration date before signing up to attend a class. A series of classes will be held throughout the state in the coming months. Below is a list of the scheduled classes we are offering as well as a list of additional locations we plan to visit before the end of the year.

## **Scheduled Classes**

- \* Richmond, August 30, 2006
- \* Roanoke, September 20, 2006
- \* Fredericksburg, October 5, 2006

## **Tentative Classes**

*(forms are not currently available)*

- \* Abingdon in late October
- \* Staunton in December

## ENROLLMENT

Please use this form to apply for enrollment. All course materials, breaks and lunch will be provided; lodging is the responsibility of the participant. The course will be offered at the Holiday Inn Select Koger South, 10800 Midlothian Turnpike, Richmond, Virginia. Directions to the training facility are available by contacting the number below. Registration begins at 7:30 a.m. with the course beginning at 8:00 a.m. and ending at 5:00 p.m.

- \* Space is limited. Because of the large volume of recertifications, we are limiting participation to twenty employees per company per class. Enrollment forms must be received no later than August 16, 2006, and will be accepted on a first-come, first-served basis.
- \* Only pre-enrolled applicants will be admitted to the course; **WALK-INS WILL NOT BE PERMITTED.**
- \* The form must be completed in its entirety for the applicant to be successfully enrolled.
- \* The enrollment fee must be paid for the applicant to be enrolled. Fax forms will only be accepted with credit card payments.
- \* Your enrollment will only be complete upon receiving a confirmation notice from VTCA.
- \* An examination will be conducted at the end of the course and the results will be mailed to the participant at the company address specified on the enrollment form.
- \* Please contact the VTCA office with any special testing requirements you may have at least one week prior to the course.

VTCA reserves the right to cancel this course due to low attendance.

Please contact VTCA's Stephanie Rusnak at (804) 330-3312 or [stephanie@vtca.org](mailto:stephanie@vtca.org) with questions.

**\*\* Your Driver's License must be presented during registration on the day of the class.**
